80	Correspondence from SSE indicates that the noise disturbance has increased and that the noise still exists with planes using the RNP1 route between us and Hatfield Broad Oak. There is definitely a problem with planes being lower, which may be linked to planes from other airports flying over space freed by the move of the Dover route. Please continue to complain to the Airport or SSE especially with plans to expand the airport.	19/01/2018	BJ	31/3/18	R	BJ
